»» From the Director-General

In 2015, the National Central Library (NCL) embarked on the new mission of “becoming a preservation and service center for national cultural knowledge and global Chinese resources.” With the objective of fulfilling the constructive plans of 2015-2020, the library spared efforts in collecting cultural assets, innovating knowledge services, promoting academic exchanges, enhancing professional development, igniting reading passions, actively spreading the essence of Chinese culture globally, promoting international cooperation and exchanges, and propagating the culture and spirit of Chinese studies in the hope of creating a new paradigm in the field of library science. In 2015, the library turned a new page in its development by covering new territory through the following six approaches: “gathering knowledge and spreading Chinese culture,” “applying new methods: knowledge services,” “cooperation and professional guidance,” “reading brings happiness to Taiwan,” “Taiwan’s wisdom shakes the world,” and “establishing a brand-new NCL through constant transformation.”

With the approach of “gathering knowledge and spreading Chinese culture,” the library managed to collect important cultural assets, digitalize rare books and documents through cooperation, and reshape the value of Chinese culture through publications; it also spread its cultural essence through marketing and added value. With the approach of “applying new methods: knowledge services,” the library established a digital center to initiate the process of digitalization of books and documents; it continued to follow trends in professional development, and expanded its vision for bibliographic services. Through publishing, researching, and reading reports devoted to the three major trends, the library took the lead in development while at the same time guided readers through the ever-expanding ocean of books by innovating public services, upgrading the functions of the information system, and applying new methods. Through “cooperation and professional guidance,” the library promoted the professional development of librarians, strengthened the integration of public library resources, established library standards and regulations, and enhanced library professional development through cooperation with all of the nation’s libraries. Through the program “reading brings happiness to Taiwan,” the library continued to create wonderful reading experiences for the public by holding activities such as “World Book Day,” “Taiwan Reading Festival,” and “Reading for the Four Seasons.” With the approach of “Taiwan’s wisdom shakes the world,” the library spared efforts in promoting the influence of Chinese studies by holding Taiwan Lectures on Chinese

Studies, establishing the Taiwan Resource Center for Chinese Studies (TRCCS) , and expanding its grants for Chinese studies. With the approach of “establishing a brand-new NCL through constant transformation,” the library demonstrated its established pattern of constant growth with its vision of encouraging research and innovation and paying attention to insights, criticism and readers’ needs.

In the past, the library established different branches of the TRCCS all over the world to promote Chinese studies; it constructed the Taiwan Citation Index system to promote global academic development, and worked hard on the value-added digitization of rare books, all of which have elicited positive responses internationally. In the future, the library plans to construct a national library for the new generation and to promote the general development of the librarianship in Taiwan through two projects: “Constructing a knowledge-based library through the constant transformation of space, service, and reading,” and “constructing a wisdom-based library that brings information to your home, consolidates media and enhances digital learning.” This yearbook has been compiled to display important annual accomplishments. Should there be any mistakes or deficiencies, your criticisms and corrections are most welcome.

參與大英圖書館合作國際敦煌項目

「國際敦煌項目」係大英圖書館重要的數位館藏資源資料庫之一，目的是把來自敦煌及絲路考古有關的手稿、繪畫等訊息及數位影像提供於網路供眾免費使用。本館典藏敦煌卷子總數量141種、152卷，除三卷道經、三卷西藏文佛經外，餘皆為漢文佛經，其中堪稱並世無雙之孤本者，約不下十卷。自2013年11月5日與大英圖書館簽署「國際敦煌項目合作協議」後，已完成100筆館藏敦煌卷子影像檔、Metadata及摘要上傳；其餘41筆敦煌卷子也已提供影像檔、Metadata及摘要，透過館藏敦煌卷子上傳於IDP，除了提供敦煌學者研究資料便利性外，更能體現本館古籍文獻特殊性。

自2014年起，本館陸續完成館藏敦煌卷子141種、152卷資料上傳IDP。Since 2014, images of 141 titles (152 items) of Dunhuang scrolls in the NCL's collection have been uploaded to IDP.

Participating in the International Dunhuang Project (IDP) in Collaboration with the British Library

International Dunhuang Project (IDP) is one of the most important digitalized resource databases of the British Library, with the objective of uploading digitalized images of manuscripts, paintings and other information related to the archeological studies of Dunhuang and the Silk Road for the public to use free of charge via the internet. The NCL has 141 titles (152 items) Dunhuang scrolls, including three Taoist scriptures, three Tibetan Buddhist scriptures, and Chinese Buddhist scriptures, and at least 10 of them are the sole copies known to exist in the world. Since the “Agreement of the Coordinative International Dunhuang Project” was signed with the British Library on November 5, 2013, more than 100 Dunhuang scrolls in the library's collection have been digitalized with scanned images, metadata, and summaries uploaded to the system. Another 41 Dunhuang scrolls have been scanned with the images, metadata, and summaries ready to upload to the IDP of the library's collection. Scholars doing research on Dunhuang can make use of these resources and benefit from the special function of the rare books and documents of the library.

古籍數位電子書，珍貴特藏再現

為讓本館特藏更貼近民眾，挑選館藏10種明清重要藏書家具有代表性圖書製作成電子書，2014年於二樓閱覽區完成互動式特藏電子書看板之設置，讀者可點選並瀏覽本館數位化之古籍內容，以及2015年新增之「鑑藏之美—歷代藏書家前賢手稿與古籍」數位主題導覽。此外，《國立中央圖書館善本圖書簡介》係本館（1933至1996年原名國立中央圖書館）於1979年發行，原書包括幻燈片與錄音帶。此套教材雖出版年代久遠，惟編輯嚴謹，饒富時代意義，值得典藏。惜播放時需以人工方式操作幻燈機與錄音帶播放機同步，且設備已為時代汰除。因此，特於2015年藉數位閱讀教育推廣計畫，重新加以整理，並採高解析度掃描，後製為HD 高畫質影片重現原音。

本館於二樓閱覽區設置互動式特藏電子書看板，讀者可點選並瀏覽本館數位化之古籍內容。

In 2014, an interactive screen for electronic books from the special collections was set up in the reading area of the second floor of the library for the public to click and browse the contents of digitalized rare books. In 2015, a digital theme guide entitled “Appreciating Library Collection: Manuscripts of Book Collectors through Dynasties and Rare Books” was added.

In addition, in 1979, the library published *Introduction to the Rare Books of the National Central Library*, which includes filmstrips and audio tapes. This teaching material, though published long ago, is worthy of the collection since it was carefully compiled and deemed a significant publication of its time. However, as it requires a manual slide projector and a tape recorder to show its content and these facilities have long been obsolete and replaced by more advanced equipment, the library launched a project of educational promotion through digital reading in 2015 to reproduce the book into an HD video.

Responding to Professional Trends and Expanding the Vision for Bibliographic Services

Internationalizing Chinese Bibliographies; the Original Cataloging Records Contribution Ranked Second in the World

One way of promoting the visibility of Chinese books worldwide is to offer Taiwan's bibliographical records to OCLC, the world's largest bibliographic utility. The NCL claimed second place in the world in the number of uploaded original cataloging records to OCLC for 2014/2015, an honor it had previously gained in 2012/2013 and 2013/2014. In addition, at a convention of member libraries of OCLC held in Taiwan in 2015, the NCL was ranked number one in both "the number of uploaded original cataloging records among all member libraries" and "the growth rate in uploading original cataloging records among 5th level member libraries."

出版《MARC 21權威紀錄中文手冊》

權威紀錄是為書目紀錄提供一個權威的形式，對編目工作來說是極其重要的一環，關係著書目紀錄的檢索控制。鑑於權威紀錄的重要性，本館自2014年起與美國新澤西學院圖書館編目部主任徐蕙芬及美國拉莫內學院技術服務館員戴怡正合作，歷經一年多的討論與溝通、撰稿和修改，於2015年6月出版《MARC 21權威紀錄中文手冊》。本書採用MARC 21權威格式結構，逐欄條理分明、深入淺出地解說，並精選適當中西文範例以為輔助。希望藉此手冊的出版，能讓國內圖書館界的同道們，從範例中學習各欄位的定義，藉由正確建立相關款目間的關係，進而提升編目工作的品質和效益。

Publishing Guide to MARC 21 Authority Records in Chinese

An authority record is an authoritative form in a bibliographic record and is quite important in cataloging since it is related to the search control of bibliographic records. In view of its importance, the library started publication of a Chinese guide to MARC 21 authority records in coordination with Head Xu Hui-fen of the Cataloging Department of the Library of the College of New Jersey and librarian Dai Yi-zheng of the Cataloging & Processing Department of Noreen Reale Falcone Library of Le Moyne College in 2014. Through endless discussions and communication, writings and revisions for more than a year, Guide to MARC 21 Authority Records in Chinese was published in June 2015. The book adopts the MARC 21 authority format structure, explaining each item in simple language with clear presentation and giving proper examples in both Chinese and English for illustration. With the publication of the guidebook, the library hoped that librarians in Taiwan could learn the definition of each item from the examples and establish a proper correlation between the related items to enhance the quality and the efficiency of cataloging.

開放RDA轉換程式，接軌國際編目規範

鑒於「資源描述與檢索」係國際新興之資訊組織規範，2014年本館規劃以機器轉換的方式針對西文書目紀錄批次建置RDA編目元素，2014年底完成「書目紀錄建置RDA編目元素轉換程式」的開發，續於2015年10月完成該轉換程式之單機版，並經一段期間的測試及調校後，2015年12月底正式於國家圖書館編目園地 (<http://catweb.ncl.edu.tw>) 開放，供各館免費下載、安裝及操作使用，為未來國內書目檢索介面FRBR化的呈現預做準備。

出版《RDA中文手冊初稿》

「RDA工作小組」在不斷地研析與切磋中，合力完成《RDA中文手冊初稿》，除公布電子檔於編目園地廣徵意見外，已於104年11月正式出版。該手冊是新國際編目規則RDA的核心元素及其相關條文的翻譯和解說，選擇性條文並附有國圖作法。導言外，共分10個部分，第1-4部分是著錄資源、責任者和主題三組實體屬性的規則；第5-10部分是描述實體間關係的規則指引，也是RDA精華所在，以FRBR、FRAD為架構，重視資源間的關係。編目員在新舊規則交替之際，須重新審視編目的要素及要素間的關聯性，本書正可提供國內

Offering RDA Converging Program to Integrate International Cataloging Regulations

As Resource Description and Access (RDA), a set of international standards concerning information organizations, became increasingly widespread, in 2014 the library planned to gradually establish RDA elements for western bibliographies through machine conversion. By the end of 2014, the “Program for Converting RDA elements for Bibliographic Records” was developed, and in October 2015, a pc version of the converging program was established. After testing and making adjustments for a certain period of time, the program was uploaded to the NCL Cataloging Web (<http://catweb.ncl.edu.tw>) for all libraries to download, install and operate, so that the library could prepare for FRBRizing its bibliographic search interface for the future.

Publishing Draft of the RDA Chinese Manual

Through endless explorations and discussions, the RDA Team came up with *Draft of the RDA Chinese Manual*. After the e-version was uploaded to the NCL Cataloging Web to solicit criticism and opinions, it was published in November 2014. The manual offers Chinese translations and explanations of the core elements of the RDA international cataloging regulations and provides examples of the NCL's adoption of selected regulations. In addition to the “Introduction,” the manual is comprised of 10 chapters. Chapters 1 to 4 provide regulations about bibliographic resources, responsibility bearers, and subjects, and Chapters 5 to 10 describe regulations of entity relationship which are the essence of RDA, focusing on relations among resources with FRBR and FRAD structures. With the adoption of new regulations, catalogers have to review the interrelationship

Optimizing the Linked Data Resources to Improve Library Services

In 2014, the “Linked Data Resources of the NCL” was established and the linked data of the Chinese subject heading and name authority data were completed. In 2015, the library finished the syntax transformation of the linked data of classification and library holdings; enhanced the batch modification function and the relational levels for management purposes, and added VIAF and Wiki information to the page elements for browsers. In this way, the three major cataloging tools, including classification schemes, subject headings, and name authority, can be used in a network environment. Participating members include national libraries and major libraries and information institutions throughout the world, with data in different formats and languages. In order to promote the Chinese authority data in traditional Chinese characters to the international platform for linking and application, the library uploaded the Chinese authority data compiled by the coordinated efforts of different libraries in Taiwan to the VIAF platform. The institutes collaborating in the compilation of authority data include Academia Sinica Library, National Chengchi University Libraries, Tamkang University Chuen Sheng Memorial Library, Fu Jen Catholic University Library, National Taiwan Normal University Library, and National Taiwan University Library. The NCL started the evaluation, discussion, and file testing process of VIAF in 2014, completed the application on January 5, 2015, and signed a memorandum on April 15, 2015. By the end of December 2015, a total of 4,219 authority records had been uploaded. Currently, none of the other VIAF members provides data in traditional Chinese characters. The Chinese authority data from Taiwan will certainly increase the overall quantity of Chinese authority data and enhance its international visibility.

2014 ISBN申請服務量，展露臺灣圖書 出版現況

Taiwan's Publication Trends revealed through the ISBN Application Service

本館為全國出版者提供出版品國際標準書號（ISBN）編碼服務，自2014年申請的4萬1,598種出版品中，分析出版者類型、出版品主題並於1月28日提出「臺灣圖書出版現況及其趨勢分析」報告，有助於出版者研訂出版計畫及主題方向參考。

The NCL offers the ISBN application service to publishers in Taiwan. After analyzing publication types and subjects from the 41,598 publications that applied for the ISBN in 2014, the library issued a report entitled “The Current Status in Taiwan's Publications and Publication Trend Analysis” as a reference for publishers in devising their publication plans and directions.

報告指出，圖書出版總量高峰已過，呈現持續下滑現象；就出版主題來看，童書出版與銷售異軍突起，文學小說出版總量持續稱霸，應用科學類新書持續上升，出版新書五分之一以上為翻譯書，日美英韓為我國翻譯出版四大出超國；電子書1,640種，以語言/文學（含輕小說）類居冠、考試用書其次。依據2013年全國公共圖書館借閱圖書排行榜顯示，國人最喜歡閱讀的類別為文學類，特別是奇幻、冒險及武俠小說等，出版新書類別與閱讀習慣相當一致；語言/文學類出版新書總（種）數雖然繼續居冠，2014年卻較2013少了693種；應用科學類出版新書居次且比前一年度成長，顯示國人對生活品質、個人養生與健康管理的追求，尤其是食安問題的出現，造成民眾特別關注此議題，也是出版持續上升原因之一。

The report points out that the number of publications was declining from its peak. Among all types of publications, the number of children's books greatly increased both in publication and sales, the number of literary fiction continued to top the chart, and new books on applied sciences continued to grow. More than 1/5 of the new books published in 2014 were translated from other languages, Japanese, American, English, and Korean being the top four. 1,640 e-books were mainly devoted to language/literature (including light fiction), with examination books coming in second. The 2013 circulation records of the public libraries in Taiwan show that literature, especially fantasy, adventure, and knight-errant novels, was the most popular type of reading, which is consistent with current publications. In 2014, new books on language/literature still outnumbered other types of books, but the number decreased by 693 from the total for 2013. New books on applied sciences came in second among new publications. The number grew from the previous year, which shows that the public pays attention to the quality of life, individual wellbeing, and health management. This is especially true because of the issue of food safety, a major reason for the increased publication in related areas.

2月12日本館於教育部召開記者會，公布臺灣2014年閱讀習慣調查結果。經彙整全國公共圖書館圖書外借及讀者借閱紀錄，分析歸納出2014年臺灣民眾的閱讀力穩定提升，其中31至50歲民眾為臺灣閱讀主力人口、女性讀者借閱率高於男性讀者；年度借閱人次逾1,722萬，較前一年增加59萬，成長3%；年度借閱冊數逾6,358萬，較前一年增加149萬，成長2%；2014年平均每人走進圖書館3.5次，此外，高達1,202萬人持有圖書館借閱證，較前一年增加60萬張，成長5%。臺灣民眾閱讀力的提升，也顯示近年來教育部、國家圖書館與全國公共圖書館在閱讀推動工作獲得顯著績效。

An Investigation of Reading Habits in 2014 Casts Light on the Reading Capabilities of Taiwanese

A press conference was held on February 12, 2015, to announce the results of an investigation of reading habits of Taiwanese in 2014. An analysis based on the compilation of the circulation records of the public libraries in Taiwan shows that in 2014 the reading tendencies of the public in Taiwan continued to grow. Among the reading public, those aged from 31 to 50 years are the most active ones, with more female readers than male readers. A total of 17,220,000 library users checked out books or other materials, an increase of more than 59,000 from the previous year, or a 3% increase. A total of 63,580,000 books or materials were checked out, an increase of more than 1,490,000 from the previous year, or a 2% increase. In 2014, every patron visited a library 3.5 times on average. In addition, more than 12,020,000 people have library cards, 600,000 more than the previous year, or a 5% increase. The increase of reading tendencies of the Taiwanese people shows that the promotional activities for reading held by the Ministry of Education, the NCL, and the public libraries in Taiwan were effective.

The workshops offered lectures on topics including information retrieval, searching for books, academic theses and dissertations, journal articles, and government resources, to help civil servants get to know the content and applications of library information resources. The “2015 Golden Information Awards” encouraged civil servants to face challenges in the form of a competition which was divided into two stages: “preliminary competition” and “final competition.” The questions asked during the competition covered the five systems established by the NCL, including the Index to Taiwan Periodical Literature System, the National Digital Library of Theses and Dissertations in Taiwan, the Taiwan Citation Index–Humanities and Social Sciences, Taiwan Memory, and the NCL Gazette Online. Competitors were divided into different groups according to the institution. Those who worked for government institutions, educational institutes of different governmental departments, and public and private schools of all levels, joined the group of “Non-professionals,” while those who worked in public libraries, libraries of different institutions, and libraries of all public and private schools joined the group of “Professionals.” All the competitors were the best in their respective institutions; through the searching strategies and keywords chosen, their familiarity with library information resources and capacity in practice were demonstrated. “λ Book-searching”，Checking Out Library Materials with Your Mobile Device

To realize the concept of “library in your pocket,” a mobile app for “λ Book-searching” was established by the NCL for users to search, purchase, manage bibliographies, and share book-lists in a convenient manner. “λ Book-searching” is equipped with four functions: “New Information of the NCL” offers information on library activities and its new progress of cataloging; by using the “Search” function readers can find the current availability of a book in the collections of 86 libraries and connect to 4 internet bookstores by scanning the bar-code of that book; “My Library” helps users maintain and manage their book list of interest and share it with others, and through “Subject Subscription” users can search for subject book lists that other users may choose to share or read related information about a given subject.

善用QR Code，圖書館導覽隨手得

為便利讀者以智慧型載具即時取得專室導覽及各項服務資訊，2015年選定圖書館內16個定點，針對館舍空間之設計理念，加入歷史文化意涵等面向，由專人撰寫導覽內容，並聘請電臺專業錄音員錄音。此一服務自8月1日起提供，讀者無須事先預約專人導覽，持有行動載具者，掃描行動導覽QR Code即可直接聆聽各項服務解說及建築與空間的導覽。以QR Code技術導入圖書館導覽服務，既增加解說之豐富性與趣味性，亦可達到導覽服務擴大化，達到以最少成本提供多元服務之效益。

讀者可持行動裝置，掃描專室外張貼的QR Code標籤，即可獲得該專室的導覽服務。
The user can scan the QR Code posted outside the reading room to gain access to the mobile library guide about the room.

Using the QR Code to Access Library Guides

In 2015, 16 sites in the library were designated for the users to gain access to library guides for materials in reading rooms and service information of the library by using their smart phones. The space design concepts of the library and their historical significance are described in the guides composed by librarians and recorded by professionals from radio stations. This service was made available beginning August 1. Users no longer need to reserve a library tour in advance; as long as they can scan the QR code of the mobile library guide with their own mobile device, they can listen to the descriptions of the various kinds of service and an audio guided tour of the building and the sites. Offering library service through QR code technology not only detailed and interesting information can be easily accessed but also expand library guide services with minimum cost.

在資源中心的館藏建置上，除考量圖書資源品質，亦兼重通識閱讀，邀請學科專家擔任選書委員，推薦青少年、文化創意、知識性、多元文化四大主題質量俱佳之圖書資料進行館藏充實，2015年共購置中文圖書7萬1,217冊，西文圖書1萬6,172冊，東南亞圖書（含緬甸、越南、泰國、馬來西亞、印尼、柬埔寨等）8,478冊，視聽資料及電子書4,379件，合計10萬246冊（件），自2013迄今已累積27萬8,080冊（件），累積借閱量達69萬9,614冊，平均每冊圖書被借閱率達2.52次。

Cooperation is the Best Policy for Improvement

Regional Resource Centers of the Public Library, a New Stimulation to the Public Reading

To promote the integration of collection resources and service development of the public library and to improve the quality of the collection, the NCL started the “Project for the Integration and Development of Public Library Resources” in 2013. Through the sharing of collection resources and the promotion of reading, the library hoped to strengthen the influence of the public library on society and improve the reading habits of the public. In 2014, three regional resource centers were established, and in 2015, one more regional resource center and eight area resource centers were established, which brings the number of resource centers to 12.

In building up the collections of the resource centers, the quality of book resources is an important consideration, and books on general knowledge are equally important. Experts in different subjects were invited to serve as book-selecting members who recommended quality books and materials for teenagers, knowledge, culture and creativity, and multicultural to enrich the library's collection. In 2015, a total of 100,246 books and materials were procured, including 71,217 Chinese books, 16,172 western books, 8,478 books in Southeast Asian languages (including Burmese, Vietnamese, Thai, Malaysian, Indonesian, Cambodian, et al.), 4,379

Moreover, to promote the resources and services of the centers, the NCL published “A Guidebook on the Services of the Regional Resource Centers of the Public Library”, designed an image doll for the resource center, produced posters and promotional literature on joint marketing activities, and assisted the resource centers in holding reading promotional activities. In 2015, 743 promotional activities were held, attracting 210,769 participants. Guiding with a Vision, Creating a New Picture of the NCL

The NCL's development strategies for 2015-2020 were drawn up in 2014. In 2015, with a clear vision and a definite objective, the library embarked on its new mission for the development of the national library with the following strategies:

2. Strengthening library services in the country so that the library will be important centers of overall learning and for daily life the public and in the promotion of the country's competitiveness in the era of knowledge economy.

6. Promoting reform of all the public libraries in Taiwan through the construction of public libraries, enriching the libraries' collections and enhancing library services.

In the development of the librarianship of the national library, the NCL came up with two projects for 2016-2020, “Transforming Reading” and “Technological Development,” to lead the libraries in Taiwan in “constructing a knowledge-based library characterized by spatial transformation, service transformation, and reading transformation,” and “constructing a wisdom-type library with information in hand, multi-media and digital learning.”

Awarding Research and Encouraging Innovation and Learning

Rewarding Library Staff for Research, Promoting the Research and Development Capacity for the Library

The NCL encourages library staff members to write research papers on topics such as library operations, library services, management and development, library and

書館學、圖書資訊學、文獻學或其他與圖書館相關之文史領域作為研究主題，一方面提升同仁研究實力，一方面研究成果可作為推動館務參考。2015年總計10篇自行研究報告，經邀請相關領域專家學者審查，選出優等1篇，佳作6篇。

鼓勵同仁古籍研究，參觀學習

泛太平洋集團總裁潘思源先生贊助本館深化古籍研究，獎助人員出國研究古籍並邀請學者專家來臺講座。2015年4月至9月間，共有6組人員分就「戰時館藏古籍文獻典藏與播遷之研究（南京、重慶）」、「古籍文獻保存與修復之研究：以北京國家圖書館、上海圖書館、浙江圖書館為例」、「手稿之徵集與管理：以上海圖書館為例」、「古籍文獻展覽規劃之研究：以中國國家典籍博物館為例」、「敦煌文書調查與整理之研究：以中國國家圖書館為例」等主題出國學習。

2015年實施讀者滿意度調查，讀者對圖書館提供服務與設施的整體滿意度達4.29分。
The 2015 survey on user satisfaction shows that users' overall satisfaction with library services and facilities was as high as 4.29.

information sciences, documentation and other related fields in literature and history to promote the research potential of the library staff on the one hand, and to promote the library operations through such research as references on the other. In 2015, 10 research papers were written, and after being reviewed by experts and scholars, one was selected as outstanding, and six were selected as excellent.

Encouraging Research on Rare Books, Conducting Learning Tours

President Pan Ssu-yuan of the Pan-Pacific Group supported the NCL in undertaking research on rare books by offering financial aid to members of the library staff who do research on rare books abroad and by inviting foreign scholars and experts to give lectures in Taiwan. In 2015, between April and September, six groups from the library staff went abroad to do research on “Study on the Removal of the Library Collection of Rare Books and Documents during War Time (in Nanjing, Chongqing), “Study on the Preservation and Repairing of Rare Books and Documents: Taking the National Library of China, Shanghai Library, and Zhejiang Library as Examples,” “Collecting and Managing Manuscripts: Taking Shanghai Library as An Example,” “Study of the Exhibition Plans of Rare Books and Documents: Taking the National Museum of Rare Books in China as an Example,” and “Study of the Investigation and Classification of Duhuang Books and Materials: Taking the National Library of China as an Example.”

重視輿情，貼近讀者的需求

透過定期的滿意度調查、即時的讀者回饋意見以及分齡分眾焦點團體座談，廣泛蒐集讀者的需求與對圖書館服務的滿意程度。2015年透過讀者滿意度調查，讀者對圖書館整體的滿意度達4.29分（滿分5分），尤以「館員服務態度」獲得滿意程度最高（4.53分），也是持續三年表現最優的項目，顯示本館推動友善服務、以客為尊的讀者服務獲得讀者的普遍肯定。

為求服務更為精進，2015年「免備照片辦證」、「研究小間延長開放時間至晚間9點」、「自修室於考季期間增加週一開放」、「增設4臺掃描器供讀者使用」、「設置安靜閱讀座位」（讀者免受3C產品干擾）、「增設17臺免登記上網用電腦」（高齡者及行動不便讀者得以就近使用）、「4間特殊讀者專屬研究小間」、「無障礙服務提供國圖簡介及閱讀活動錄音下載」等便民措施，皆讓進館讀者感受到本館提供友善服務與環境的努力成果。

於閱覽區增設掃描器提供讀者利用
More scanners were installed in the Reading Area for users.

Paying Attention to Public Opinion and Users' Demands

Through regular surveys on satisfaction, users' immediate feedback, and focus group discussions among readers of different age groups, the NCL collects information related to users' demands and level of satisfaction with library services. In 2015, based on a survey of users' satisfaction, their overall satisfaction with the library was as high as 4.29 (with 5 being the highest score); the highest satisfaction point (4.53) was for the category of "the service attitude of library staff," which has received the highest score for the past three years. The result shows that readers are generally positive about the library services which place priority on the readers.

To further improve library services, in 2015 polices implemented for the convenience of the public included "issuing library cards without a photo," "extending research carrel hours to 9 pm," "opening the Study Room on Monday during examination sessions," "increasing the number of scanners to 4 for users," "installing quiet reading areas (without the disturbance of 3C products)," "increasing the number of unreserved computers to 17," and "downloading a handicap-free service of the introduction to the NCL and reading activity recording." Library patrons were thus able to benefit from the NCL's user-friendly services and the environment.

設置免登記上網的電腦專區，便利高齡者及行動不便者就近利用。
